BRAIN AND NERVE FOOD. VITALIZED PHOSPHITES !

Speculators of all kinds, whether of stocks grain or pork, are fracfully frombled with a sure brain, the altrialm of another makes the sore. They are using up the brain phosphite factor than they make it they are living upon their brain aspital—living upon their brain aspital—living upon their brain aspital—living upon there has brain aspital aspital is quantiered, and soon there is brain bankruptry. Siespewesses is one off the first symptoms. The only relict is Watsinsed Phasephite, the Brain and Nerre Pood. That is a positive help.

toperative. Any attempted sale of them be United States and state authorsty "

thority to appoint an agent on the part of the state to co-operate with the agent of the United States in the selection of the lands But in h s informed the legislature that he had engaged unformation was added that up to the date of the message, which was delivated to the legi-lature on the 13th Scotember, 1882 selections patented to the state at an early day. Governor Theyer said further that at the commencement of his torin of office only about three or four

1870, millions of zeres had, however, been fited on The filings of Hen. Owen alone footed are four millions of seres The zet of 18'0 provided that the awamp lands should be so d

null by this legislation. The 20 per centum had not been paul on these filings because the state had received up to 1878, when the not was repealed, no title to the lands, nor could it received the lands, nor could be not made and null by this legislation. The 20 per centum conve title till the selections had been made and certified to the state. The law of 1870 the o the law of 1878, be worth anything whatever nulsed with the price of the lands was fifty cents per acre, and this privilege could ain open only till January 1, 1889

made under the set of 1870 the swamp lane grabbers are still permitted to pay in 20 yer cent, and take certificates of sale from the state regardless of the act of 1878, which de clared all these applications positively void. I we are correctly informed, the censure for this parture from law, and not not obtained the tas, to be divided shout equally between the tas, and the present one I. has been shown haretofore how Hen Oven agreed to sell 122 100 scree to an English syndithe Moody administration has followed the example. How there exists are to be justified in thickely to become a burning question when the logislature at its next session institutes inquiry last ev r had, note of his living friends know concerning them. We have seen how Owen obtained from R V. Ankeny, the agent of the United States, just such service as was wanted to secure approval of the selections covered behing filings. It will become interesting also to inquire how he secured from H C Perkins the agent of the state, information highly al uable to him. The people are going to take an enterest in these matters, and that raterest is likely to be made very been, before the legicla ture meets, by su is at law growing out of the "deal," which will bring to light proofs of some very remarkable transactions

The Montana newspapers do not make the fact ingly, very prominent, but enough is said to slow that the pre cut winter has been a very severe one for stock. The recent Chinook, it is sucwill give the stock not already boyond relief a will give the scot, het are any object that it test people at not even the glamour of a chance for life. The long and extreme coll great tame can seave fasonation around a pro-weather that proceeded this break up hash in contain of didnet nihms, dimit exhibited in a connection with the deep frozen snow in many such ball. Mr Amold should equal to the parts of the territory, resulted in considerable land. A procession of dislated a deas, would oss, especially on stock brought in lost season and more particularly on sheep not clean of the scab, and young calves Many sections report the winter in some respects severar than that of three years ago. That the loss in sheep has act been great in out rely due to the fact that cambon great in out rely due to the fact that cambon great in out rely due to the fact that cambon great is out rely due to the fact that cambon is with the footsteps of the United States even low in the footsteps of the United States even rotation should state near very generally pre-vided, and still more to the fact that plenty of hay had been stored for feeding at the ordinal time. It is too soon to estimate the per cent of loss as yet nor is the danger of loss wholly
passed. Much of the stock that surv ves is so
The Cincinnent Con educed that it cannot all endure the racks that munily attend the sudden changes of spring

"The chinf consumers of Chinese ica." save the St. James Gazette, "are still the British the Americans of the United States and the Ruesman, But in America it is chiefly green that it in, request, as black is with the English. The history of the growth of this taste English. The history of the growth of this taste in England is very remarkable. The fast I adia Company sint out their farst order to their factors in 1664 for 100 lbs, after having offered 2 this of tea as a present to the kips. But in .660 Mr. Pepps says he went to take a cup of the 'new Chihese drukt—ton.' From 1741 to .745 the importation did not expect 768,420 bs; The last tventure is the Heppner Times. It takes a conditional and include the cannot determine.

Umanilla county now has six newspapers—the large present the port first venture is the Heppner Times. It takes a sind a present in the same of the cannot determine.

THE SCHOOL MELTING.

The impatience of the people of Portland THE SWAMP LAND BUSINESS.

Governor Thayer, in his message to the leg islature in 1880, discussed at length the swam; land question. What is singular in his treatment of the subject was his apparent failure to recognize clearly that the set of 1870 has been in the act of 1870 has been and the subject was his apparent failure to recognize clearly that the set of 1870 has been concushed to selected was an ill-advised measure. It is not to oripple the schooles, but to selected was an ill-advised measure. It is three that the grant of these lands to the state was a present grant; staff the subject to which it is applicable must be ascertained to render to operative. Any strompted sale of them by the strong of the subject of the subject to which it is applicable must be ascertained to render to operative. Any strompted sale of them by the subject of the subject to which it is applicable must be ascertained to render to operative. Any strompted sale of them by the subject of the subject o the resolutions a enforce a more economical wanted would be voted without question, and therefore the study has been to make the work ing of the schools as complicated and expensive fore their identity is easiablished and acknow edged upon the part of the United States ear not fail to cause confusion and difficulty. The selection of swamp lands under said grant necessarily requires the co-operation of this professors and the companion of the confusion of t The governor admitted a doubt of h.s at payers have been reflied on to foot all the bills They are tired of it and are resolved that their earnest desire to support efficient common schools shall be longer by taken advantage of and abused by pressing it to the support of a system which has seen carried far beyond the proper simplicity of common school matrice

RAILROAD COMMISSION

Massachusetts was one of the first, if not the first, of the states to enjoy the benefits of a rati-rged commission, which had the ability and interest of the pecpie as a check upon the man commission has long since provid its great value both to the public and the radicals. And in every state where there has been a oppable commission intrusted with power that had honer enough no to sell out to the rairroads the people have derived great advantages from notice given by the governor of the approval of the selections, and the remainder at the experation of the years. But no selections were an

ation of tab ypars. But no selections were alphanolated at the second, as we have seen, till about the close of Governor Theyer's term in 1882, and long before that time the act of 1870 had been repeated By an act approved October 13, 1873 the entire act of 1870 was in direct terms arounded; and other methods were substituted for the set of 1870 was in direct terms arounded; and other methods were substituted for the set of 1870 was in direct terms arounded; and other methods were substituted for the set of 1876 was in direct terms arounded; and other methods were substituted for the set of 1876 which have not been regularly made naccordance with law, or which have not been regularly made payment of the 20 per centum of the purchase proces, are bereby declared void and on no force or effoct whatever. But, "Where such applications for the purchase of swamp and overflowed lands have been regularly made processes of swamp and overflowed lands have been regularly made processes of swamp and overflowed lands have been regularly made prior is the gaseage of this act, and the terms and requirements of the substitute of the substitute of the section of the substitute of the payment of the 20 per centum of the purchase processes of swamp and overflowed lands have been regularly made prior is the passeage of this act, and the terms and requirements of the substitute of the payment of the purchase of swamp and overflowed lands have been regularly made prior is the passeage of this act, and the terms and conditions of the law under which they were than the processes of swamp and overflowed lands have been regularly made prior is the passeage of this act, and the terms and conditions of the law under which they were the passeage of the substitute of the passeage of the payment of the passeage of the payment of the part of the payment of the paymen time prior to January 1, 1880 receive a equation of the second of the se veyance thereor to be with us some certs always appropriation in this country, so the that all the loose filings under the most substantially not method if giving the act of 1870 were rendered absolutely people a proportionate share with the california.

> thinks would end inrage corruption He notes very little demand for nationalization of the land, and contra to the great attention paid to Henry George in England with his comparative making little or 10 progress but hat temperance reform as in England, is one of the leading questions of the day. Probibition over very large areas, he thinks, has not succeeded in America; and he believes that American expersence proves that a stringent license law u

ing with the liquor traffic t was made a partner in the proceeds in to secure his recommendation to The current story that Stephen A Douglas the general land office for approval of the solutions. These tracts of 122,000 acres were selections. These tracts of 122,000 acres were covered by two certificates from the state, the first wife, to whom he was married in 1243, was first dated July 21, 1880, the accound February the daughter of Colonel Robert Martin of North Carolina, a rich slave-owner Mis Douglas is 22, tool Agus observed and other by that I have no believed to have come into possession of a Mis-October and November, 1883, certificates one sissippi plantation and a number of slaves, ering 146,000 scree were issued to Owen upon their lands covered by his old fling. Idao amarried Ade e Cutts of Washington who

> As regards the iquor truffic, the pub to mind is at present day ded between restriction by high hosenes and radical probibition. The highest dealers on not defy or even ignore public sentiment. The must either submit to a reasorablelaw of restriction or prepare soone or lastr to be averwhelmed by prohibitor They have these two horns of a dilemma to choose between By resisting high license they only contribute to the strength of the growing prohibition sent ment. These of the liquor dealess who hav score enough to reason are beginning to uncerstand this and to not accord
